RE: Junkyard License 2012

Dear Mr. Gabrysiak:

On June 17th, 2011 you were found to be in violation of the Uniform Construction Code and were sent a Notice and Order of Penalty. On Oct 24th, 2011 you were sent a Notice of Violation and corrective action to be taken by November 17th 2011. As of this date these violations remain outstanding

As of May 4th, 2012, your penalties have accrued to \$48,000.00 and will continue to accrue until violations have been abated and the required approvals have been obtained. This morning I have spoken to Jean Montgomerie from the Pinelands Commission who has informed me that your application is incomplete for lack of information. I have also spoken with Sherri Hannah, secretary to the Southampton Township Planning/Zoning Board, who has informed me that she has not received the required information to allow your application with the board to go forward.

This letter serves as final notification that all violations must be corrected by June 4, 2012 otherwise I will have no recourse but to forward this matter to Municipal Court for the full collection of all penalties and fines that will have accrued.

Jody S Mazeall
Construction Official/Zoning Officer
