How did your Senator Vote?

Review the list below to see how each Senator voted on the nomination of Robert Barr to the Pinelands Commission during the Senate Session on March 16, 2015. Two votes are listed below because Senate President Sweeney called for a vote twice. The first time there were 19 in favor and 18 against and 3 not voting (including Senator Sweeney). Seeing that the vote was not going as he intended Senator Sweeney tabled the roll call vote (he needed 21 votes in favor) and brought it up 1 hour later. This time the vote was 21 in favor and 17 opposed with two Senators not voting thus approving the nomination of Robert Barr to the Pinelands Commission.

What happened?

Senator Sweeney withheld his vote originally (reserving his right to nullify if he could not get a majority in favor). During the second vote he voted in favor of the nomination and Senator Joe Pennacchio (R-26) changed his vote from **against the nomination** in the first round to **in favor of the nomination** in the second round. There was an hour in between votes where something changed Senator Pennacchio's mind.
