

South Jersey Gas wants to build 22-miles of gas pipeline through the NJ Pinelands. Learn about the natural gas process and it's impacts.

GASLAND

PART II

In this explosive follow-up to his Oscar®-nominated film **GASLAND**, filmmaker Josh Fox uses his trademark dark humor to take a deeper, broader look at the dangers of hydraulic fracturing, or fracking, the controversial method of extracting natural gas and oil, now occurring on a global scale.

GASLAND PART II, which premiered at the 2013 Tribeca Film Festival, shows how the stakes have been raised on all sides in one of the most important environmental issues facing our nation today. The film demonstrates that the gas industry's portrayal of natural gas as a clean and safe alternative to oil is a myth, and that fracked wells inevitably leak over time, contaminating water and air, hurting families, and endangering our climate. Finally the film looks at how the powerful oil and gas industry is, in Fox's words, "contaminating our democracy."

WHEN: Sunday, October 13th 2:30-5pm

WHERE: Ocean City Public Library, Lecture Hall, 17 Simpson Ave., Ocean City 08228

RSVP: FREE Screening! Following film join us at Tuckahoe Inn for meet & greet w/Sunday specials.

SEE THE MOVIE. GET INVOLVED.

Admission is free, but donations to offset the cost of the event are greatly appreciated.
