**Scientific Name:** *Aronia arbutifolia*

**Common Name:** Red Chokeberry

**Container Size:** #1 6-12"

**REDUCED Price:** \$6.00

**Description:** Shrub with densely hairy lower leaf surfaces. Found in forested wetlands and shrub bogs. White to pink flowers on hairy stalks develop into 1/4" red fruits. 5'-10'. Lovely color all year round, attracts birds. Prefers wetter acidic soils and full sun.

**Scientific Name:** *Aronia melanocarpa*

**Common Name:** Black Chokeberry

**Container Size:** #1 12-18"

**REDUCED Price:** \$8

**Description:** Shrub with smooth leaf surfaces. Found in forested wetlands and shrub bogs. White to pink flowers on smooth stalks develop into 1/4" black fruits. 5'-10' high. Can grow in wet or dry areas. Prefers partial shade. Flood tolerant.

**Scientific Name:** *Aster novi-belgii*

**Common Name:** New York Aster

**Container Size:** 2" plug

**REDUCED Price:** \$2.00

**Description:** Perennial with violet blue flower heads. To 5' high. Wetland species and prefers full sun. Attracts butterflies. Flowers early September to late October.

**Scientific Name:** *Cephalanthus occidentalis*

**Common Name:** Buttonbush

**Container Size:** #1 6-12"

**REDUCED Price:** \$6

**Description:** Medium-sized shrub often growing in 1 foot or more of water. Flowers early June to late August. Small white flowers cluster together forming "buttons". 3' to 6' can reach 15'. Grows best in partial shade can grow in full shade. Obligate wetland species.

**Scientific Name:** *Chrysopsis mariana*

**Common Name:** Maryland golden-aster

**Container Size:** Quart

**REDUCED Price:** \$15

**Description:** Sturdy perennial of pine woods and sandy areas. Clusters of bright yellow flowers about 2" wide appear Aug, Sept, Oct. Grows to 1' tall. Grows best in full sun. Very drought tolerant, likes sandy well-drained soils.

**Scientific Name:** *Eupatorium coelestinum*

**Common Name:** Blue Mistflower

**Container Size:** 2" plug

**REDUCED Price:** \$2.00

**Description:** Perennial with ornamental lavender flowers - nice border plant. Will also fill in as a ground cover. From 1' to 2'. Found in sandy coastal marshes and drier inland meadows. Flowers are attractive to bees and butterflies. Flowers appear from July to October. Grows best in full sun but will tolerate shade.

**Scientific Name:** *Helianthus angustifolius*

**Common Name:** Swamp Sunflower

**Container Size:** Quart

**REDUCED Price:** \$15

**Description:** This herbaceous perennial has brilliant yellow flowers in late summer, early fall. Can grow to about 6' tall with stems that branch and flowers about 2" in size. Prefers moist, sandy, acidic soil but will thrive in well-drained soil if watered during dry spells. Does best in full sun but can grow in partial shade. Can tolerate waterlogged soils for extended periods of time. Nice ornamental plant for bog or pond area.

**Scientific Name:** *Heliopsis helianthoides*

**Common Name:** Smooth Oxeye/False Sunflower      **Container Size:** Quart      **REDUCED Price:** \$4

**Description:** Adaptable perennial of dry open sites. Showy golden flowers in summer. From 3'-4' tall. Likes sandy soil. Needs full sun and can tolerate moist to dry conditions.

**Scientific Name:** *Ilex glabra*

**Common Name:** Inkberry Holly      **Container Size:** #1 12-18"      **REDUCED Price:** \$6

**Description:** Midsized evergreen, dioecious shrub of acidic soils. The only Ilex species to sucker. 6'-8' tall. Female plant makes shiny black berries. Semi-shade to shade. Prefers moisture but can tolerate dry conditions. Flowers mid-June to early July. Fruit mid-September to November.

**Scientific Name:** *Kalmia angustifolia*

**Common Name:** Sheep Laurel      **Container Size:** 8-12"      **REDUCED Price:** \$10

**Description:** Perennial evergreen shrub from between 1' - 3' tall. Has deep purple to red bell shaped flowers in June - July. Likes partial shade and prefers moist acidic soils. Can grow in dry soils once established.

**Scientific Name:** *Kalmia latifolia*

**Common Name:** Mountain Laurel      **Container Size:** 12-18"      **REDUCED Price:** \$12

**Description:** Perennial shrub from between 12'-20' tall. Evergreen with showy white to pink bell-shaped flowers appearing June - July. Likes moist acidic soils. Can grow in full sun to full shade but grows best in partial shade.

**Scientific Name:** *Myrica pensylvanica*

**Common Name:** Northern Bayberry      **Container Size:** #1 12-18"      **REDUCED Price:** \$6

**Description:** Medium size, semi-evergreen shrub found on a variety of sites. Aromatic leaves and berries. Salt tolerant, good for coastal & highway plantings. A nitrogen fixer. 5'-12' tall. Prefers moist soils but is drought tolerant. Likes partial shade.

**Scientific Name:** *Nyssa sylvatica*

**Common Name:** Blackgum or Black Tupelo      **Container Size:** 2      **REDUCED Price:** \$10

**Description:** Medium to large tree often found growing in forested wetlands and moist uplands. Scarlet fall color, one of the first species to turn color in the fall. 30-50' with horizontally spreading branches. Flowers appear May to June and are an excellent source of nectar for bees. Tolerates sun, partial shade and shade. Prefers moist, acidic soils. Difficult to transplant once established due to long taproot.

**Scientific Name:** *Osmunda cinnamomea*

**Common Name:** Cinnamon Fern      **Container Size:** Quart      **REDUCED Price:** \$4

**Description:** Erect clumping fern, up to 3' tall. Found in wet woods, swamps, marshes. Cinnamon colored hairs at the base of each frond. Up to 5'. Likes moist conditions, semi-shade.

**Scientific Name:** *Osmunda regalis*

**Common Name:** Royal Fern      **Container Size:** Quart      **REDUCED Price:** \$4

**Description:** Tussock-forming fern. Grows in marshes, swamps, wet meadows & moist woodlands. To 6'. Likes moist conditions, semi-shade.

**Scientific Name:** *Panicum virgatum*

**Common Name:** Switchgrass      **Container Size:** 1      **REDUCED Price:** \$6

**Description:** Very common bunch grass of medium to dry open sites. Attractive fall and winter color. To 6' tall. Can grow in moist and dry soils. Sun to semi-shade.

**Scientific Name:** *Pinus virginiana*

**Common Name:** Virginia Pine

**Container Size:** #2 18-24"

**REDUCED Price:** \$10

**Description:** Has 2 needles per fascicle. Grows best on clay loam or sandy loam sites, very shade intolerant. To 40'. Likes moist soil and sunny conditions.

**Scientific Name:** *Solidago odora*

**Common Name:** Sweet Goldenrod

**Container Size:** Quart

**REDUCED Price:** \$15

**Description:** Dense, golden yellow flowers appear July - Sept on this hardy perennial. Its leaves when crushed give off a licorice fragrance. Grows well in dry, sandy soils but can also grow in clay or more fertile sites. Likes full sun to partial shade. Reaches 2-5 ft. in height.

**Scientific Name:** *Solidago sempervirens*

**Common Name:** Seaside Goldenrod

**Container Size:** #1

**REDUCED Price:** \$6

**Description:** Perennial grows from 2-8' and has arching branches of clusters of bright yellow flower heads. Flowers August to October. Tolerates salt spray. Leaves somewhat succulent. Likes full sun and moist, acidic soils.

**Scientific Name:** *Sorghastrum nutans*

**Common Name:** Indiangrass

**Container Size:** #1

**REDUCED Price:** \$6

**Description:** A tall, striking bunchgrass with broad blue-green blades and beautiful plumes. Very tolerant of most site conditions. To 6'. Will grow in moist or dry soil. Grows in sun, shade and partial shade. Flowers mid August to mid-September.

**Scientific Name:** *Vaccinium angustifolium*

**Common Name:** Lowbush Blueberry

**Container Size:** #1 6-12"

**REDUCED Price:** \$8

**Description:** Low-growing shrub forming dense colonies on dry, sterile soils. Sweet, delicious fruit and deep red stem and leaf color in fall. Fruits from late June to August. 1'-2' tall. Likes moist or dry soils. Sun, partial shade, shade.

**Scientific Name:** *Woodwardia virginica*

**Common Name:** Virginia Chain Fern

**Container Size:** Quart

**REDUCED Price:** \$15

**Description:** Great fern for moist, shady sites. It will fill in quickly to form groundcover. Can also grow in sunny sites along stream banks, bogs, or pond edges. Can reach 18-24" in height and 2-3 ft. wide.
