Subject: South Jersey Gas

Good Morning Peter:

I apologize for the delay in transmitting potential offset figures. I have a meeting scheduled with staff this afternoon to review the details of the South Jersey Gas project. After that meeting, I will be in a better position to analyze the potential impacts associated with the project and develop a potential offset.

I should have something to you by close of business on Wednesday.

Please do not hesitate to contact me should you have any questions.

Regards,

Stacey P. Roth, Esq.
