**Container Size 1** = 7" deep by 6" in diameter  
**Container Size 2** = 9" deep by 8" in diameter  
**Container Size 3** = 9.75" deep by 11" in diameter  
 Other container sizes as listed.

### HERBACEOUS / PERENNIALS

**Scientific Name:** *Rudbeckia hirta*

**Common Name:** Black Eyed Susan

**Container Size:** Quart

**Price:** \$15

**Description:** Features daisy-like flowers with bright yellow-orange rays and brown center disks. The long bloom time lasts from June-September. Attracts bees and birds. Wet tolerant, but will not tolerate prolonged wet weather. Use on the borders of your beds. **Native To: South Jersey**

**Scientific Name:** *Packera aurea*

**Common Name:** Golden Ragwort

**Container Size:** Quart

**Price:** \$15

**Description:** This versatile and easy-to-grow flowering groundcover offers early spring blooms and year-round lush green foliage. Small, yellow daisy-like flowers create a burst of color in March and April. Flowers are attractive to early emerging bees and butterflies. Does well in shady, partially shady, and sunny wet environments. Good for rain gardens. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Andropogon virginicus*

**Common Name:** Broomsedge Bluestem

**Container Size:** 2" Plug

**Price:** \$3

**Description:** Common species of dry, open sites. Like Little Bluestem, but leafier and stouter flowers tucked inside bracts. 2'-5' high. Upland, dry sites. Semi-shade. Attracts birds and butterflies. Flowers mid-August to late September. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Cephalanthus occidentalis*

**Common Name:** Common Buttonbush

**Container Size:** #1

**Price:** \$25

**Description:** Common Buttonbush's fragrant, white, spherical-shaped flowers resemble pin cushions. The flowers bloom in June, followed by round, button-like fruits enclosing small nutlets, which persist into winter. The flowers provide a nectar source for native bees and butterflies. Wet tolerant, good for rain gardens. Full sun to partial shade.

**Native To:** *South Jersey*

**Scientific Name:** *Echinacea purpurea*

**Common Name:** Purple Coneflower

**Container Size:** 2" Plug

**Price:** \$3

**Container Size:** Quart

**Price:** \$15

**Description:** The popular butterfly magnet. Seeds provide food for goldfinches. 3'-4' tall with pink-purple flowers that bloom from June through September. Medium to dry soils; full sun to part shade. **Native To:** *South Jersey*.

**Scientific Name:** *Eragrostis spectabilis*

**Common Name:** Purple Love Grass

**Container Size:** 2" Plug

**Price:** \$3

**Description:** Warm-season grass with small reddish-purple flowers that bloom in July-August. Dried flowers can be used for fall flower arrangements. Flowers are attractive to bees and butterflies. Does better in hot, dry, full sun conditions. Does not tolerate wet sites or shade. Perfect for butterfly gardens and wildlife habitat areas.

**Native To:** *South Jersey*.

**Scientific Name:** *Juncus effusus*

**Common Name:** Soft rush

**Container Size:** 2" Plug

**Price:** \$3

**Description:** Blooms July through September. Clump forming, flower blooming, grass-like rush reaching 3' in height. Stems are unbranched and round in cross section. Has the potential to create dense stands with deep fibrous root systems. Great for use as shoreline protection. Capable of filtering suspended solids, and up-taking excess nutrients. Persists through polluted conditions. **Native To:** *South Jersey*.

**Scientific Name:** *Eupatorium Maculatum*

**Common Name:** Spotted Joe-Pye Weed

**Container Size:** 2" plug

**Price:** \$3

**Description:** Perennial with narrow leaves, growing in whorls of three or four around the stem, purple/ purple spotted flowers bloom in late July to October, forming nice bunches at top. Prefers dry open areas with sandy soils and good drainage. Flowers are attractive to bees and butterflies. **Native To:** *South Jersey*.

**Scientific Name:** *Solidago bicolor*

**Common Name:** Silver rod

**Container Size:** Quart

**Price:** \$15

**Description:** Blooms in late summer with a flat cluster on silver/white flowers sitting on top of this herbaceous perennial. Prefers full sun and moist soil but can tolerate drought conditions. Up to 3' tall and less susceptible to powdery mildew than some other species of goldenrods. **Native To:** *South Jersey*.

**Scientific Name:** *Solidago nemoralis*

**Common Name:** Gray goldenrod

**Container Size:** 2" Plug

**Price:** \$3

**Description:** Compact goldenrod of dry, sandy, open sites. Yellow racemes appear from summer through the fall and attract butterflies. Up to 2' tall. **Native To:** *South Jersey*.

**Scientific Name:** *Heliopsis heliantoides*

**Common Name:** False Sunflower

**Container Size:** 2" Plug

**Price:** \$3

**Description:** A perennial sunflower of wet meadow with showy yellow flowers, also known as Smooth Oxeye. Hardy and spreading. Food source for birds and insects. 3'-4' tall, like other sunflower/daisies, it blooms in late summer. Prefers organic, sandy and acidic/pH neutral soils. Perfect for rain gardens, and for regular flower beds and wildflower/pollinator gardens. **Native To:** *South Jersey*.

**Scientific Name:** *Iris versicolor* **Container Size:** 2" Plug **Price:** \$3  
**Common Name:** Blueflag Iris **Container Size:** Quart **Price:** \$15  
**Description:** This iris has attractive blue to purple flowers and blooms May - July. From 2' to 3' tall. Grows in medium to wet soils in full sun to partial shade. Can grow in 2"-4" in shallow standing water. Does best in full sun and moist, rich soils. Will spread by self-seeding and extension of rhizomes. **Native To: South Jersey.**

**Scientific Name:** *Liatris spicata* **Container Size:** 2" Plug **Price:** \$3  
**Common Name:** Dense Blazing Star **Container Size:** Quart **Price:** \$15  
**Description:** Slender, erect perennial that reaches a height of 3'-4'. A dense spike of purple flowers appears July - September. Likes full sun but can tolerate partial shade. Grows best in moist, acidic sandy soil. Attractive to bees, hummingbirds and butterflies. Low maintenance plant that may be resistant to deer. **Native To: South Jersey.**

**Scientific Name:** *Lobelia cardinalis*  
**Common Name:** Cardinal Flower **Container Size:** 2" Plug **Price:** \$3  
**Description:** Herb of wetlands with striking, bright red flowers & toothed alternate leaves. Flowers May - October. Attracts hummingbirds. To 5' tall. Needs wet or moist soil and likes sun, partial shade or shade.  
**Native To: South Jersey.**

**Scientific name:** *Monarda dydima*  
**Common Name:** Scarlet Beebalm **Container Size:** Quart **Price:** \$15  
**Description:** Cultivated variety (powdery mildew resistant) of a beloved perennial with rosettes of bright red flowers in terminal whorls. Special value to hummingbirds, butterflies, bumble bees and honey bees. 2'-3' tall. Blooms during summer months for 6 weeks. Tolerates full sun, but prefers wet meadows and moist open woods.  
**Native To: South Jersey.**

**Scientific name:** *Peltandra virginica*  
**Common Name:** Arrow arum **Container Size:** 2" Plug **Price:** \$3  
**Description:** Aquatic perennial aroid with long fleshy leaves. Produces a leaf-like spathe curled around a rod-like spadix that produces small inconspicuous flowers. Emergent leaves bring accent to ponds and bogs. Provides habitat and cover to fish, insects, and amphibians, and also perching for some birds that frequent ponds and bogs. Plant the rhizome in damp muddy soil or in up to 18 inches of water. **Native To: South Jersey.**

**Scientific Name:** *Pycnanthemum tenuifolium*  
**Common Name:** Narrowleaf Mountain Mint **Container Size:** 2" Plug **Price:** \$3  
**Description:** Easy to grow, minty aromatic foliage with silvery-white tops. Tiny light pink-white flowers in clusters. Great for woodland borders. One of the best nectar sources for native butterflies. Attracts swarms of pollinators to your garden! 2'-3' tall. Flowers June-September. Moist to moderately well-drained soils. Sun to part shade. Deer resistant! **Native To: South Jersey.**

**Scientific Name:** *Symphotrichum novae-angliae* **Container Size:** 2" Plug **Price:** \$3  
**Common Name:** New England Aster **Container Size:** Quart **Price:** \$15  
**Description:** Easily grown in average, medium, well-drained soils in full sun. Prefers moist, rich soil. Lavender, purple or blue flowers August - October. Pinching back the stems several times by mid-July will help control plant height, promote bushiness and relieve the need for staking. Attracts bees and butterflies. Somewhat drought tolerant. 3'-5' high. **Native To: South Jersey.**

**Scientific Name:** *Symphotrichum laeve*  
**Common Name:** Smooth Aster **Container Size:** 2" Plug **Price:** \$3  
**Description:** The stout, leafy stem of this perennial grows 2-4 ft., with dark-green foliage that is smooth on top and rough underneath. The attractive and numerous pale-lavender flowers with yellow centers occur in large, open heads atop the stems. Sun loving and drought hardy. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Vernonia noveboracensis*

**Common Name:** New York Ironweed

**Container Size:** 2" Plug

**Price:** \$3

**Description:** Great butterfly attractor with numerous tiny, fluffy, deep purple flowers in loose clusters atop stiff, leafy stems. Tolerates a wide range of soils, and prefers medium to wet soils. 4'-8' tall. Full sun to part shade.

**Native To:** *South Jersey.*

## **TREES / SHRUBS / VINES**

**Scientific Name:** *Acer rubrum*

**Common Name:** Red Maple

**Container Size:** Tubeling 6-10"

**Price:** \$5

**Description:** Common in hardwood swamps, grows over 40' tall, blooms in the spring, and produces impressive red leaves. This species prefers moist, acidic soils, but can tolerate a range of soil conditions. **Native To:** *South Jersey*

**Scientific Name:** *Arctostaphylos uva-ursi*

**Common Name:** Bearberry

**Container Size:** #1 6-24"

**Price:** \$15

**Description:** Ground-hugging understory shrub that produces pink to white flowers in April/May and berry-like red fruit that persists into winter. The nectar attracts hummingbirds, butterflies and bees and the berries provide food for wintering birds and small mammals. Prefers acid soil and sandy, well-drained sites. Grows well in poor infertile soils. Full sun to partial shade. **Native To:** *South Jersey and Pine Barrens.*

**Scientific Name:** *Kalmia latifolia*

**Common Name:** Mountain Laurel

**Container Size:** #5

**Price:** \$30

**Description:** Large shrub that can grow over 6' tall with white to pink flowers. Blooms in the summer. Moist, acidic soils. Grows best in partial shade. **Native To:** *South Jersey & Pine Barrens*

**Scientific Name:** *Kalmia latifolia* "Olympic Fire"

**Common Name:** Mountain Laurel "Olympic Fire"

**Container Size:** #5

**Price:** \$30

**Description:** Variety of Mountain Laurel with amazing red buds that pop open to reveal white to light pink flowers, creating a great contrast. Grows well in full sun to part shade in cool, moist, well-drained, acidic soil. Blooms early through mid-summer. Up to 4-5' tall. **Native To:** *South Jersey & Pine Barrens*

**Scientific Name:** *Kalmia latifolia* "Carol"

**Common Name:** Mountain Laurel "Carol"

**Container Size:** #5

**Price:** \$30

**Description:** Very compact variety of Mountain Laurel at just 3-4' tall. Summer blooms are red in bud and pinkish-red in flower. Full sun to part shade; moist, well-drained soils. **Native To:** *South Jersey & Pine Barrens*

**Scientific Name:** *Kalmia latifolia* Pink Charm

**Common Name:** Mountain Laurel Pink Charm

**Container Size:** #5

**Price:** \$30

**Description:** Deep pink buds open to rich pink flowers with a narrow dark pink ring near the base of the corolla. Ideal for a lightly shaded, woodland setting, providing year-round protection for birds. **Native To:** *South Jersey & Pine Barrens*

**Scientific Name:** *Kalmia latifolia* "Bullseye"

**Common Name:** Mountain Laurel Bullseye

**Container Size:** #5

**Price:** \$30

**Description:** Variety of Mountain Laurel with striking clusters of flowers that are white with a broad cinnamon-purple band on the inside. 4' - 5' tall. Blooms late spring to early summer. Moist, acidic soils. Prefers part shade but tolerates a wide range of light conditions **Native To:** *South Jersey & Pine Barrens*

**Scientific Name:** *Rhododendron 'Maximum Roseum'*

**Common Name:** Great Laurel

**Container Size:** #7 18-24"

**Price:** \$40

**Description:** This broadleaf evergreen shrub has clusters of white to purplish-pink flowers that bloom in June, providing a valued food source for bumblebees. Use Great Laurel in shrub borders, foundation plantings, and natural areas around your yard. Shade to partial shade. **Native To: South Jersey**

**Scientific Name:** *Rhododendron 'Nova Zembla'*

**Common Name:** Evergreen Rhododendron

**Container Size:** #7 18-24"

**Price:** \$40

**Description:** A popular and attractive broadleaf evergreen shrub with rich red flowers in spring and an upright rounded habit, quite hardy, good in partial shade; must have well-drained, highly acidic and organic soil, use plenty of peat moss when planting. **Native To: South Jersey**

**Scientific Name:** *Rhododendron 'Roseum Elegans'*

**Common Name:** Roseum Rhododendron

**Container Size:** #7 18-24"

**Price:** \$40

**Description:** This vigorous-growing, medium sized evergreen shrub is valued for its large rose-lilac colored flowers that bloom in the late spring months. These plants will perform best on north or east facing slopes, and prefer partial shade. It's an outstanding choice for shrub or mixed borders, woodland gardens, and shade gardens. **Native To: South Jersey**

**Scientific Name:** *Rhododendron yakushimanum 'Solidarity'*

**Common Name:** Solidarity Rhododendron

**Container Size:** #5 15-18"

**Price:** \$30

**Description:** The generously sized flowers (up to 3") are borne in clusters like a bouquet, and they open cherry red before aging to pink and white. The sturdy, elliptical green leaves provide a handsome background for the blooms and evergreen color for the balance of the season. Rhododendron is a genus of evergreen and deciduous shrubs, which includes Azaleas. These lovely shrubs look terrific in a mixed border or in foundation plantings. All thrive in full sun or partial shade and evenly moist, acid soil. **Native To: South Jersey**

**Scientific Name:** *Cornus racemosus*

**Common Name:** Gray Dogwood

**Container Size:** #1

**Price:** \$15

**Description:** Produces white clusters of white flowers in late May to early June followed by small, white, berry-like fruits, which attract many species of birds. The fruits are on top of branched, red twigs, which remain showy after the fruits have been consumed by the birds. Great butterfly attractant, provides habitat cover and shelter for wildlife. Tolerates poor and somewhat dry soils. Perfect for wildlife gardens, rain gardens and edges of ponds or streams. **Native To: South Jersey**

**Scientific Name:** *Aronia arbutifolia 'Brilliantissima'*

**Common Name:** Brilliant Red Chokeberry

**Container Size:** #5 30-36"

**Price:** \$40

**Description:** *Aronia arbutifolia 'Brilliantissima'* is a deciduous shrub with white flowers in May. The bright red fruit of this Red Chokeberry ripens in late summer and persists into winter. The glossy foliage turns brilliant red in fall. This cultivar differs from the species; it is more compact, produces larger and more numerous fruit plus has superior red fall color. It forms a suckering colony and is wet tolerant. Full sunlight.

**Native To: South Jersey**

**Scientific Name:** *Ilex verticillata*

**Common Name:** Winterberry Holly

**Container Size:** #1

**Price:** \$15

**Description:** A holly with small white-green flowers in summer, attracts honeybees and butterflies. Fruits are bright red and provides food for wintering birds. Use in shrub borders and hedges. Common Winterberry is a good choice for wet sites, such as rain gardens and along ponds or streams. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Ilex glabra*

**Common Name:** Inkberry Holly

**Container Size:** #1

**Price:** \$25

**Description:** A holly with small white-green flowers in summer, attracts honeybees and butterflies. Fruits are deep purple (or ink color) and provides food for wintering birds. Use in shrub borders and hedges. It is a good choice for wet sites, such as rain gardens and along ponds or streams. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Magnolia virginiana*

**Common Name:** Sweetbay Magnolia

**Container Size:** #2 12-36"

**Price:** \$15

**Description:** Small tree with showy, aromatic white flowers. Semi-evergreen leaves and brilliant red ornamental fruit. Spicy, aromatic leaves. 10'-30' tall. Blooms mid-June. Wet to moist acidic soils. Prefers full sun but tolerates partial shade. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Nyssa silvatica*

**Common Name:** Black Gum

**Container Size:** #2 >3'

**Price:** \$25

**Description:** Separate male and female trees produce small white flowers in May-June. Both flowers produce nectar that attracts pollinators, and fruits are a preferred food source for migrating and resident birds in the fall. It offers showy, red color in fall. Its medium-high wind resistance tolerates different soil types and wet/dry conditions. It is somewhat salt tolerant. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Photinia melanocarpa*

**Common Name:** Black Chokeberry

**Container Size:** #1 18-24"

**Price:** \$15

**Description:** Shrub with smooth leaf surfaces. Found in forested wetlands and shrub bogs. White to pink flowers on smooth stalks develop into 1/4" black fruits. 5'-10' high. Can grow in wet or dry areas. Prefers partial shade. Flood tolerant. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Pinus rigida*

**Common Name:** Pitch Pine

**Container Size:** #2

**Price:** \$15

**Description:** The characteristic Pine Barrens tree. Large when grown on good sites and protected from fire, scrubby and flat topped when burned. Equally at home on both dry sites and in wetlands. 40'-60' tall. Likes sunny conditions. **Native To: Pine Barrens.**

**Scientific Name:** *Quercus phellos*

**Common Name:** Willow oak

**Container Size:** #2

**Price:** \$15

**Description:** the same tree produces separate male and female flowers (catkins) in spring that attract bees, produces the typical acorns that birds and wildlife depend on in the fall and winter. It has cascading, narrow, willow-like leaves, which turn yellow, bronze-orange, yellow-brown, or russet-red in fall. Adult trees provide nesting area for birds and habitat for wildlife in general. Tolerates a wide range of soil conditions and can be used a street tree or shade tree. **Native To: South Jersey.**

**Scientific Name:** *Itea virginica 'Merlot'*

**Common Name:** Sweetspire

**Container Size:** #5 18-24"

**Price:** \$25

**Description:** *Itea virginica 'Merlot'* is a Sweetspire with fragrant white flowers in June and has the most compact habit of our *Iteas*, with burgundy fall foliage. A true multi-season plant, colorful twigs in winter, fragrant flower spikes, dense deer resistant colonies in summer and long lasting burgundy foliage in fall. It is wet tolerant.

**Native To: South Jersey.**

**Scientific Name:** *Spiraea latifolia*

**Common Name:** White Meadowset

**Container Size:** #1

**Price:** \$15

**Description:** Woody shrub in the rose/apple family that can grow 3-6' in height and width. Produces white-pinkish fragrant flowers June through September that attracts bees and butterflies. Prefers moist conditions and full sun. Thrives in sandy, loamy soils. **Native To: South Jersey.**

**Scientific Name:** *Vaccinium angustifolium*

**Common Name:** Lowbush Blueberry

**Container Size:** Tubeling 6-10"

**Price:** \$5

**Description:** Small shrub at home in acidic lowlands. A plant for all seasons with attractive flowers, tasty fruit, scarlet fall foliage & red winter stem color. Fruits early July to early August. To 4' tall. Likes moist soils but with some irrigation can also be grown on drier sites. Sun, partial shade, shade. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Vaccinium corymbosum*

**Common Name:** Highbush Blueberry

**Container Size:** #1 6-24"

**Price:** \$15

**Description:** Medium tall shrub at home in acidic lowlands. A plant for all seasons with attractive flowers, tasty fruit, scarlet fall foliage & red winter stem color. Fruits early July to early August. To 12' tall. Likes moist soils but with some irrigation can also be grown on drier sites. Sun, partial shade, shade. **Native To: South Jersey and Pine Barrens.**

**Scientific Name:** *Viburnum trilobum*

**Common Name:** Cranberry Viburnum

**Container Size:** #1 18-24"

**Price:** \$15

**Description:** Dense, rounded, multi-stemmed shrub with showy white flowers that produces cluster of red showy berries. Ornamental and useful to birds. Blooms May-June. 6'-12' tall. Prefers moist soils and partial shade. **Native To: New Jersey.**
